- Lifelong learning

THE GOALS OF SERVICE PROVISION FOR SUPPORTED PEOPLE

- Close personal relationships with family and friends, romantic partners and acquaintances
- Voice in choosing/changing staff
- Services and supports that are age appropriate.
- Opportunities to advocate for oneself
- Voice in defining support provision
- Leading a self determined life

SUPPORTED HOUSING

- The service of supported housing is provided to people who need support in order to live in the community and lead self determined lives as rightfull members of their communities
- Support is provied to the person in all areas of life (home, work, leisure time, relationships)
- The type, degree and scope of support are indicividually adjusted for every person supported.
- When necessary, professionals from other services in the community are involved in supporting the person using supported housing services

- Person Centered Planning is the foundation of service provision geared towards achieving outcomes for people supported
- The person receives support to realise the goals of her/his person centered plan from the service, other services and family and friends (natural network of support)
- Person centered planning is a continuous process, in order to achieve the outcomes the person desires there needs to be continuous communication between the person, the coordinator and the support staff.

The ultimate goal of the service is to support people to become as independent as possible and to develop their own skills and natural support networks.

Thank you!
